

Cut-End Mop Heads • Loop Mop Head

Handle sold separately.

**CUT-END WET MOP HEADS**

Four-ply, cut-end yarn. Absorbent natural cotton fiber for general mopping. Rayon has immediate absorbency and wet release properties ideal for finishing. Cotton/synthetic blend absorbs 5.5 times its weight in water. Standard heads use clamp style mop handles; saddleback heads use clamp or gripper style handles; lieflat heads use lieflat screw-in handles (all sold separately). 12 mop heads per case.

There are usually "hidden resources" within every work place: people who are eager to help with environmental projects. If you want allies and helpers, put out the word and you may be surprised at how many of your co-workers from all walks of life will come forward to help. If you'd like to try a project but you don't have the time, ask for volunteers. They can research for local recycling resources, make phone calls, write e-mails, design posters, transport used computers to a local school, etc. The point is that you don't need to be the only one involved. You can build a team to help you. Just ask!
